Americas Education Services Presents

Premier Remote Delivery: WorkshopPLUS - Data AI: Azure Databricks Essentials - Open Workshop
Workshop Start Date: September 14th, 2021
Workshop End Date: September 16th, 2021
Workshop Start Time: 9:00 AM CDT

Presenter: El Amin Daouda

Presenter Email: eldaouda@microsoft.com

How the Offering Works: The Premier Remote Delivery workshops are delivered via a web platform. The instructor provides a combination of PowerPoint, live demos, and Q&A to deliver a rich and effective learning experience.

Cloud Hosted Lab Environment

The lab environment for the workshop will be hosted online at the following location:

Note: Best practice is for the students to login to Services Hub first and then access Learning Campus to access the class/content. Students still have the option to log in directly via MSA account, but it is recommended to go through Services Hub.

- **Lab Access:** http://aka.ms/premiereducation
- Event Training Key*: E158ACBB66D14CF2

   *Please Test Connectivity as soon as possible, using the Event Training Key highlighted above. To test your connection, please go to http://aka.ms/LODtest and click on "Launch Lab". This will test that you can launch the labs and that you have the needed system requirements.

   On the day of the workshop, log-into the Premier Education Services website (http://aka.ms/premiereducation) and click on **WorkshopPLUS -> My Training -> Redeem Training Key**, then populate your provided Event Training Key. Click on **Launch Test Lab**. **To exit, click on the Exit icon on the top right of the VM.**

   You'll need a **Microsoft** account, formerly known as Windows Live). You can use any Microsoft account. Sign up for one at: http://signup.live.com
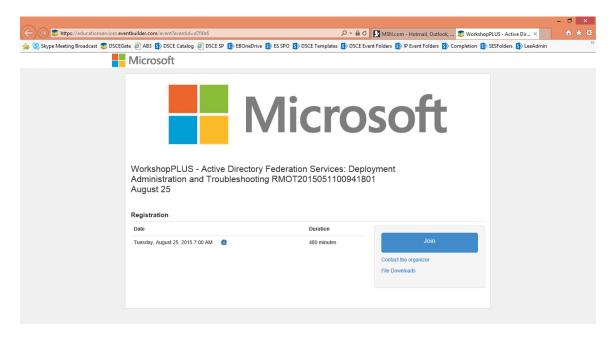

Course Materials

In order to provide students with the most up to date materials, the workshop manuals are available online. Once you login to the Cloud Hosted Lab Environment you will have access to the course materials.
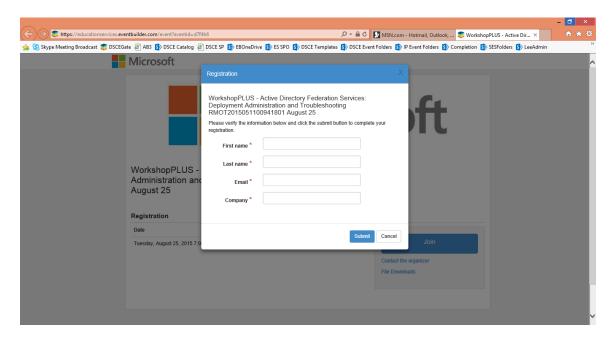

Meeting Information

Attendee Access: https://workshopplus.eventbuilder.com/WPDAIADE9142021

This link contains the meeting access points for each day of the delivery.

- Attendees require the following in order to view the stream. Attendees may also wish to provide their IT department with the EventBuilder Streaming Preparation page at https://workshopplus.eventbuilder.com/test

1. Supported browsers: Edge, Chrome, Firefox or Safari
2. Working computer speakers
3. Broadband internet connection of 1 mbps *per attendee*
4. Access to video streaming via their network. Ports 80, 443 and 1935 must be open. This can be evaluated via the test page.
5. Webcast support: support@eventbuilder.com

1. After you click the link 'Attendee Access' URL you will be directed to a landing page that lists all of the days of your workshop. Please find the correct day and click the "Join" button.

2. After clicking on the "Join" button and you will be asked to fill in a few fields with basic information (first name, last name, email, company).

If you need assistance, we are available to help via email. We will also be available **30 minutes** before the class starts to help troubleshoot any connectivity issues.

Understand the Logistics – It can be challenging to keep the class on-schedule in a remote setting. We will be adhering to start/end times strictly for that reason. We plan to break for approximately 1 hour for lunch, which typically occurs at noon central time. We will also be including additional 15 minutes breaks aligned with our in-person workshops. It may be a good idea to bring lunch for the next three days. Please plan accordingly as there will not be a recording of this available after the workshop.

If you have difficulty testing your connectivity to the hosted lab, <u>please contact your presenter directly (email provided above).</u>

You will receive an email survey after the workshop – please take the time to fill that out so that we may know if we've satisfied your expectations. Enjoy the workshop!
